
THE DARLALORIAN

CHAPTER 8: INTO THE DARLA-VERSE

As our story comes to a close, let us review the dizzying chain of events that have led us to where we are.

It all began with the tale of The Darlalian, a space-faring adventurer sworn to protect a mysterious creature known only as The Puppy Child.

However, the other characters began acknowledging they were, in fact, forced to take part in the narrative and everything was being controlled by The Puppy Child. Most shocking was she was the real-life Darla the Wonder Dog!

It was then the scene of the action switched to a small town somewhere in New Jersey. We were no longer reading a space story, but something far more sinister. For we now realize that the stories are all different and yet they are part of the same reality.

For all of creation, everything we hear and see, has been revealed to be a part of the Darla-Verse. It's an interlocking and sometimes overlapping set of alternate universes where Darla and her friends live endless variations of their lives. Whether it's Lou Brutus, Venus the Meowing Pussycat, Little Stevie the Boss Pony or any number of other characters.

Darla IS the Wonder Dog, Puppy Child, Scarlet Pup, AND MORE!

Welcome to the Darla-Verse!
